

LOCKHEED MARTIN

BRIAN DUFFY - BIOGRAPHY

Vice President and Program Manager

Altair Lunar Lander

Lockheed Martin Space Systems Company

Joined Corporation in May 2001

Appointed to Current Position in December 2008

Brian Duffy is currently Vice President and Altair Program Manager, Altair Lunar Lander. In this role he is leading the Lockheed Martin Space System Company's support to NASA in designing the vehicle that will carry astronauts to the surface of the moon. Prior to this position, he was Vice President, Mission Operations and Support Services for Lockheed Martin Mission Services headquartered in Colorado Springs. In this role, he directed the activities of a variety military space and other programs critical to national defense.

He joined Lockheed Martin in May 2001 as Vice President and Associate Program Manager for Lockheed Martin Space Operations at the Kennedy Space Center. In that capacity, he directed the Consolidated Space Operations Contract (CSOC) activities for the Center including the operation and maintenance of all communications systems and computer networks. He moved to his current position in January 2004.

Prior to joining the Corporation, Duffy spent 16 years with NASA as an astronaut and in senior leadership positions. He commanded STS-92, an International Space Station assembly mission, in October 2000. He was also the commander of STS-72, and the pilot of STS-45 and STS-57. During his tenure at the Johnson Space Center (JSC), he served in management positions of increasing responsibility including the JSC Deputy Director (Acting) and Assistant Director (Technical).

Before joining NASA, Duffy served as a test pilot and was the Director of F-15 flight tests at Eglin AFB in Florida. There he managed a fleet of uniquely modified aircraft to increase the effectiveness of the F-15. He retired from the United States Air Force as a Colonel in July 2001 after completing a 26-year career. During his career he logged over 5,000 flight hours in more than 25 different aircraft. He received many awards including the NASA Distinguished Service Medal, the NASA Outstanding Leadership Medal, the Distinguished Flying Cross, the Defense Superior Service Medal, the Legion of Merit, and Defense Meritorious Service Medal.

Duffy holds a bachelor of science degree in mathematics from the United States Air Force Academy (1975) and a master of science degree in systems management (1982) from the University of Southern California. He is a distinguished graduate of the USAF Test Pilot School and the Air Force's Undergraduate Pilot Training program.
